Dr. Swamidass and Dr. Lents are [live streaming an interview with philosopher J.P. Moreland](#) on Brains, Minds and the Soul.

We wonder together if artificial intelligence could ever have a mind? Will an atheist biologist agree we have a “soul”? What is substance-dualism, and is this the only faithful Christian view?

Join this conversation with us. Together, let us consider the grand question: *what does it mean to be human?*
